First, go to our AGC page. Click "Register Student"

Again, click on "Register Student"

Please only register one student at a time.

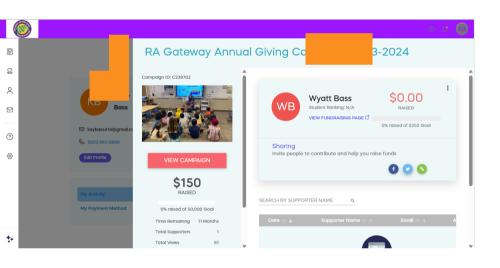

There is an option to add multiple to cart, but due to one of the future steps, it is best to do one at a time.

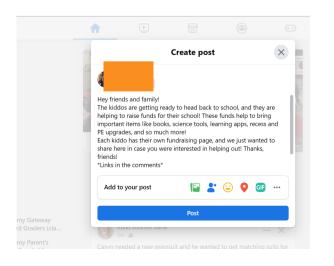

Enter your student's information.

You can choose your student's monetary goal- we reccommend \$100-250 per student.

Please enter your student's grade and teacher for tracking purposes -- this will not appear on their public page.

## Once you have created one student's page, you can click here to head back to the main AGC page to start the process again for another student.

Any time you want to get back to this page, click "My account" on Rally Up. Then, student pages will be listed under "My members"

You can also click on the student's name to get to their individualpages.

Once you've created your page(s), it's time to share with family and friends!

You can share via social media, email, text -- whatever works best for you! It's also great if you can include a video/picture/message from your student(s) to show why they're helping to raise funds for their school!
